

Sai Naga Pramod Parimiseti

Front-End Developer

USA | +1 (913) 710-6922 | saipramod0316@gmail.com | [LinkedIn](#)

Professional Summary

Front-End Developer with 4+ years of experience in designing and developing responsive, user-friendly web applications using React, Angular, and Vue.js. Proficient in JavaScript (ES6+), TypeScript, HTML5, CSS3, and modern UI frameworks such as Bootstrap, Material UI, and Tailwind CSS. Experienced in state management (Redux, Context API, RxJS), REST API integration, frontend testing (Jest, Cypress), performance optimization, and collaborating in Agile teams to deliver high-quality, scalable solutions.

Professional Experiences

MetLife, USA

Jan 2025 – Present

Front-End Developer

- Orchestrated front-end enhancements using React and Redux, boosting application performance by 30% through efficient state management and optimized data rendering techniques.
- Implemented state management with Redux and Context API, reducing UI-related bugs by 15% and improving app stability.
- Integrated RESTful APIs and third-party services, enabling seamless data flow and reducing API response errors by 10%.
- Optimized application performance using lazy loading, code splitting, caching, and Lighthouse audits, improving page load speed by 25%.
- Collaborated in Agile Scrum teams with UX/UI designers, backend developers, and QA, ensuring scalable and user-friendly solutions.
- Participated in CI/CD pipeline implementation using Jenkins, Docker, and AWS, streamlining deployment and reducing release cycles by 15%.

XLogic, India

Dec 2021 – Jul 2023

Front-End Developer

- Authored 10+ reusable UI components with Tailwind CSS and Material UI, slashing front-end code redundancy by 20% and saving developers 8 hours weekly.
- Managed application state efficiently with Angular RxJS and React Hooks, enhancing stability and performance.
- Partnered with backend developers and QA engineers to ensure frontend functionality met business goals, improving delivery efficiency by 15%.
- Conducted cross-browser and cross-platform testing, ensuring consistent performance across multiple devices.
- Designed and implemented CI/CD pipelines with Jenkins and Docker, automating build, test, and deployment processes, reducing deployment errors by 15%, accelerating release cycles by 20%, and improving overall delivery efficiency.
- Assisted in design system creation, improving UI consistency and maintainability across projects by 25%.

Magna InfoTech, India

Mar 2020 – Nov 2021

Software Engineer (UI/Frontend Focus)

- Developed responsive web interfaces using HTML5, CSS3, JavaScript, and jQuery, improving usability and accessibility by 20%.
- Architected the UI/UX for interactive dashboards by processing 100k+ JSON data records daily, providing real-time insights to end-users; team productivity increased by 20%.
- Revamped UI architecture leveraging code splitting and lazy loading; trimmed initial JavaScript bundle size by 35%, directly resulting in a 20% faster loading experience.
- Participated in unit testing and bug resolution, enhancing application reliability and reducing post-release defects by 20%.
- Collaborated with cross-functional teams in agile environments using JIRA and Confluence.
- Contributed to the design and implementation of reusable UI components, reducing development effort for future projects by 30%.

Projects

Employee Management Web App (React + Spring Boot)

- Built a CRUD-based employee management system with React frontend and Spring Boot backend.
- Built a secure login system with role-based access control, improving data protection by 30%.
- Refined database interactions with Spring Data JPA and Hibernate, reducing query response time by 30%.

E-Commerce Product Catalog

- Developed an interactive product catalog with JavaScript, AJAX, and REST APIs, enabling real-time product listing and search.
- Improved UI/UX by adding interactive filters, sorting options, and live product updates, increasing user engagement by 40%.

Certificate

- Java Full Stack Development
- Spring Boot for Beginners
- C, C++, MySQL, Java – Spoken Tutorial Project, IIT Bombay

Skills

- Programming Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, Python (basic)
- Frontend Development:** React, Angular, Vue.js, Bootstrap, Material UI, Tailwind CSS, Chart.js, jQuery, AJAX
- State Management:** Redux, React Hooks, Context API, Angular RxJS
- Backend & Integration:** REST APIs, JSON, Node.js, Express.js (basic)
- Testing & Quality:** Jest, Cypress, React Testing Library, JUnit, Mockito, PowerMock
- Performance Optimization:** Code Splitting, Lazy Loading, Caching, Lighthouse Audits
- Cloud & CI/CD:** AWS (EC2, S3, RDS, Lambda, API Gateway), GCP, Azure, Docker, Kubernetes, Jenkins, Maven, Gradle
- Databases:** PostgreSQL, MySQL, MongoDB
- Version Control:** Git, GitHub, Bitbucket
- Agile & Collaboration Tools:** Scrum, JIRA, Confluence, Figma, Postman
- Operating Systems:** Windows, Linux

Education

Master of Science in Computer Science

Aug 2023 – May 2025

University of Central Missouri – Missouri, USA
