

Santosh Karad

+1 623 800 6901 | santosh.karad@outlook.com

PROFESSIONAL SUMMARY

Seasoned **Quality Engineer** with over **8 years** of expertise in **Automation Testing** for **Web UI, API, mobile applications** and **performance testing** across diverse domains, including **Airline, Intralogistics, Mortgage, and Healthcare**. Adept at designing **scalable, robust test automation frameworks** and leading teams in **Agile environments**. Proficient in **CI/CD integration** using **Azure DevOps and AWS**, mentoring teams, and driving continuous quality improvement. Committed to delivering **high-quality, reliable software solutions**. Open to **new opportunities** to leverage and expand expertise in testing and automation.

CORE COMPETENCIES

Automation Frameworks & Tools: Selenium, Playwright, Cucumber, TestNG, Pytest, Robot Framework, Rest-Assured, Requests, PySpark, Appium, Postman, JMeter

Programming Languages: Java, Python

DevOps & CI/CD: Azure DevOps, AWS, Docker, Kubernetes, Jenkins, Git

Testing Expertise: Functional Testing, UI Automation, API Testing, Mobile Testing, Database Testing

Methodologies: Agile (Scrum/Kanban), Behavior-Driven Development (BDD), Test-Driven Development (TDD)

PROFESSIONAL EXPERIENCE

Senior Test Analyst

Han IT Inc | Jan 2025 – Present

- Leading automation testing initiatives, optimizing test strategies, and driving quality improvements across enterprise applications.
- Developing **scalable automation frameworks** and integrating testing processes into **CI/CD pipelines**.
- Conducting performance testing to assess system scalability, reliability, and responsiveness using JMeter.
- Mentoring QA teams and implementing **best practices** to enhance efficiency and accuracy in test execution.

Senior Test Analyst

GenZ Software Solutions Pvt Ltd | Oct 2023 – Dec 2024

- Designed and implemented a **scalable test automation framework** using **Selenium and TestNG**, achieving a **40% reduction** in regression testing time.
- Enhanced deployment efficiency by **30%** with automated build and deployment pipelines using **Azure DevOps**.
- Conducting **code reviews**, mentoring junior engineers, and ensuring adherence to **Agile best practices**.

- Conducted performance testing to evaluate application stability and optimize system performance using JMeter, identifying and resolving bottlenecks.

Software Test Engineer

SitusAMC India Pvt Ltd | Nov 2020 – Sep 2023

- Built a **scalable hybrid automation framework** using **Selenium and TestNG**, improving **test coverage by 50%**.
- Deployed and maintained **scalable test environments** using **AWS EC2**, ensuring seamless integration with testing pipelines.
- Standardized **automation best practices**, fostering seamless collaboration across teams.

Software Test Engineer

Suma Soft Pvt Ltd | Apr 2015 – Mar 2020

- Developed a **modular Pytest-based automation framework**, boosting **automation coverage by 40%** across **end-to-end testing scenarios**.
- Executed detailed **manual testing** for **core trading systems**, validating functionalities such as **trade settlement and order processing**.
- Documented **comprehensive test scenarios** and **defect logs** using **Jira**, aiding the transition to **automation seamlessly**.

EDUCATION

Bachelor of Engineering

Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, Maharashtra

CERTIFICATIONS

ISTQB Certified Tester – Foundation Level
