SKILLS

Oracle 10g/11g/12c/18c/19c Database Administration

Oracle Database Upgrade 11g to 12c and 18c to 19c

Oracle RMAN and DataPump 11g / 12c / 18c / 19c

Recovery manager and recovery catalog maintenance

Configured Dataguard standby/DRS database

Administration Oracle GoldenGate for Database Replication

PL/SQL Development (Procedures, Functions, Packages, Jobs)

Performance Tuning & Capacity Monitoring

Microsoft SQL Server Administration 2008 to 2019

Oracle Weblogic 12.2 and 10.3

Linux Shell Scripting

OAS(Oracle Analytics Server) and Pentaho Kettle for ETL(Extract, Transform, and Load) tool

Develop PL/SQL Packages, Stored Procedures, Functions, Triggers, SQL statements in Oracle Database

Develop routines in Oracle using SQL*Loader, third party vendor APIs to load/integrate data between systems

WORK EXPERIENCE

Database Developer and Administration

Sisal Lottery

03/2022 - Present

Tirana, Albania

Achievements/Tasks

- ◇ Develop PL/SQL Packages, Stored Procedures, Functions, Triggers, SQL statements etc in Oracle Database.
- ◇ Worked on PL/SQL scripts to create and drop database objects including Tables, Views, and Primary keys, Indexes, Constraints, Packages, Sequences and Synonyms.
- ◇ Responsible for designing, developing, automating, monitoring and maintaining ETL jobs and processes associated with the transfer of data to and from internal and external locations.
- ◇ Developed Linux shell scripts to extract and manipulate data from third parties for import into the Oracle database, while also generating and transferring data from the Oracle database to third parties.
- ◇ Analyze database system and query performance, and perform triage and resolution, in response to performance-related product incidents. Analyze the effects of application changes on database performance, and make tuning recommendations.
- ◇ Support DBA utilities, reorganization, index builds, exports and imports.
- ◇ Work with Principal and Senior DBAs to understand integration requirements, operational support and processes, and customer needs.
- ◇ Good working knowledge of job scheduling, monitoring tools and analyzing logs to resolve issues/bugs using utility tools.
- ◇ Provide database expertise to project teams to maximize system availability, efficiency, and security.
- ◇ Worked with Pentaho Kettle ETL(Extract, Transform, and Load) tools and techniques and with OAS(Oracle Analytics Server) ETL(Extract, Transform, and Load) tools and techniques.
