EXPERIENCE

Senior Scrum Master

Jul 2023 – Feb 2024

Leap Metrics, Texas (Hyd)

Project: healthcare data management, analytics, and AI-driven care management Platform
Company driven by the mission to empower healthcare.

- Documenting project plans and risk logs. Collaborated with product owners and stakeholders to prioritize product backlogs, focusing on key HEDIS measures such as preventive care, chronic condition management, and patient outcomes.
- Removed obstacles and managed risks to enable teams to maintain high performance while adhering to HEDIS deadlines and data submission requirements. Worked closely with quality assurance teams to validate data accuracy, ensuring compliance with HEDIS performance measures and quality reporting standards.
- Capitalized on opportunities to share the benefits of agility with management to gently nudge toward organizational adoption of agile principles.

Skills: HEDIS (Healthcare Effectiveness Data and Information Sets), root cause analysis, coaching and conflict management.

Scrum Master/ Project Manager

Jun 2022 – April 2023

ZapCom Group Inc, Texas (Hyd)

Project: Neighborly (It is a family of home service brands that shares the commitment on providing an outstanding level of service)

- Having managed and facilitated various brands of different scales being integrated under one roof, Implemented new techniques that led to a notable 58% improvement in project execution and 40% reduction in timeline duration.
- Launched the integration project one month ahead of schedule by increasing ROI by 10% and ensured a signoff rate for mockups demonstrating alignment with client requirements and facilitating smooth project commencement.
- Facilitate process improvements and work with cross functional teams to increase productivity while managing an agile environment, utilizing ADO to cut cycle time by 20%.

Skills: Product Delivery, DOD, DOR, Getting things done, Budgeting, Retrospectives, PI planning, Resource allocation.

Scrum Master Nov 2020 – Feb 2022

Huntington Bank, Ohio

Project: Web app Migration (Migrating the mobile application to we apps with advanced data protection)

- Facilitated concurrent scrum ceremonies for two agile teams following Scaled Agile Framework (SAFe).Collaborated with Release Train Engineer (RTE) to plan Program Increment (PI), organized Scrum of Scrum (SOS) meetings.
- Demonstrated exceptional proficiency in tracking key scrum metrics such as burn down, Velocity and capacity. This meticulous tracking contributed to an 85% increase in transparency and commitment to delivering committed work.
- Experience leading agile cloud teams working building infrastructure, as opposed to apps using DevOps on the public cloud (Azure, AWS), Design CI/CD, TDD and build Cloud service models for Infrastructure as a Service, Platform as a Service and Software as a Service (SaaS).

Skills: SDLC, Requirement gathering, Customer Relationship Management (CRM), Project implementation, Conflict resolution, Continuous Integration (CI), Continuous Delivery (CD),

Agile Coach Jun 2019- Nov 2020

USAA Insurance, Texas

Project: Capstone

- Evaluated KPI's for production of management information. Prepared various dashboards which reflect risks, dependencies and impediments. End to end facilitation of the agile processes and documented business requirements into CRM with functional specifications.
- Finalized deliverables and activities for sprint zero scoping and analysis, Release Plan and construction sprints, with product owner and technical resources.
- Collaborated closely with product owner to prioritize backlog items, align them with business objectives, define user stories and successfully execute scrum events as sprint planning, Daily Scrum, Sprint review, sprint retrospective, leveraging JIRA and confluence to enhance SDLC. This led to substantial 50% to 75% increase in production.

Skills: Team leadership, Project estimation, Project delivery, Customer engagement, Communication, Waterfall methodologies, Problem solving, Analytical and interpersonal skills.
