

Shipra Saumya

Software Developer Engineer in Test

Phone: +1(774-357-9678) | Email: shipra25.saumya@gmail.com | Location: Dallas, Texas |

PROFESSIONAL SUMMARY

- 8 years of IT experience in **Software Quality Assurance, Functional Testing, and Automation Testing** using industry-standard processes, tools, and methodologies
- Strong expertise in **Automation Testing** with **Java, Selenium WebDriver and RestAssured**
- Skilled in **planning, designing, and implementing automation frameworks** for Web, API, and Client-Server applications
- Proficient in **BDD framework development** using Cucumber with Gradle
- Experienced in **Agile, Waterfall, and Kanban methodologies**, participating in sprint planning, stand-ups, and retrospectives
- Proven track record of **CI/CD pipeline management** with Jenkins and GitHub Actions for seamless integration and deployment
- Expertise in **test automation and continuous delivery** of web applications, APIs, client-server systems, and web services
- Skilled in **test management and reporting** using **JIRA** with defect tracking via Confluence integration
- Performed **Smoke, Functional, Integration, Regression, Sanity, and System Testing** to ensure application quality
- Strong experience in **Core Java** and object-oriented programming concepts for framework design and automation scripting
- Experienced in **User Acceptance Testing (UAT)**, collaborating with business users to validate requirements
- Conducted **Cross-Browser and Compatibility Testing** for web applications
- Proficient in **test effort estimation, test planning, test strategy preparation, test script creation/execution**, and reporting test coverage metrics
- Extensive knowledge of all phases of **Software Development Life Cycle (SDLC)** across Agile, Scrum, and Waterfall

TECHNICAL SKILLS

Languages/Frameworks:	Core Java, BDD, Groovy, Cucumber
Testing Tools	Selenium WebDriver, RestAssured
Version Control & CI/CD	Git, GitHub, Jenkins, GitHub Actions
Database Technologies:	SQL Server, MS Access
IDE & Tools	IntelliJ, Eclipse, Visual Studio, JIRA, Confluence
SDLC Methodologies	Agile (Scrum), Waterfall, CI/CD
Other Skills	Test Data Management, Microsoft Office Suite, Communication, Stakeholder Collaboration

EXPERIENCE

May 2021-
July 2025

JP Morgan Chase
Lead SDET / Automation Engineer

- Designed and implemented **automation solutions** for Web and API testing using **Java, Selenium, Cucumber and Gradle**.
 - Automated API validation for **RESTful services** including request/response handling, schema validation, and performance checks.
 - Built scalable **BDD frameworks** (Cucumber) integrated into **CI/CD pipelines** with Jenkins and GitHub Actions.
 - Gained hands-on experience with **AWS services** such as S3 and EC2 for basic automation and testing support.
 - Developed and executed **automated test scripts** for functional, regression, and system testing, achieving comprehensive test coverage.
 - Integrated automation framework with **JIRA** for efficient test management, traceability, and reporting.
 - Collaborated with development teams on **Spring Boot-based applications**, validating microservices and integration flows.
 - Performed **SQL-based queries** for test data management, backend verification, and regression testing.
 - Authored and maintained automation documentation, ensuring reusability and knowledge transfer.
- Environment/Tools:** Java, Selenium, Spring Boot, Cucumber, Jenkins, GitHub, SQL Server

Aug 2020
April 2021

AMG Technology, NJ
Automation Engineer/ BA

- Developed automated test cases using **Selenium WebDriver and RestAssured** for API and UI validations
 - Built and optimized automation frameworks with **Cucumber/BDD** and integrated into CI/CD pipelines with Jenkins/GitHub
 - Performed SQL-based backend validations and automated data consistency checks
 - Ensured cross-browser compatibility through Selenium-based regression tests
 - Collaborated with stakeholders and QA teams to align automation strategy with business requirements
- Environment/Tools:** Selenium, RestAssured, Java, SQL, Jenkins, GitHub, Cucumber, JIRA

Oct 2019
May 2020

University of Massachusetts, Dartmouth
Graduate/ Student Assistant

- Explaining how to solve algorithms and concept of Java
 - Grade student papers and evaluate their performance and score based on teamwork and check their management skills
 - Tutored students in Java and algorithm problem-solving
 - Created an educational video tutorial on **Data Analytics with AWS SageMaker** ([YouTube Link](#)), showcasing cloud-based analytics workflows and enhancing student learning resources.
- Environment/Tools:** Java, AWS

Jan 2016 | **Aon consulting Pvt. Ltd., India**
July 2018 | **Setup Configuration Specialist**

- Designed and executed manual and automated test cases using Java and IntelliJ for HR and insurance applications
- Built reusable automation scripts with Java and SQL for backend and database functionality testing
- Executed CI/CD-oriented regression testing pipelines, validating deployment integrity and service behavior
- Used SQL and Microsoft Access for backend data validation, focusing on financial accuracy and data quality
- Interact closely with onsite developers, Offshore Team to follow up on defect reports and actively work with them to resolve the issues
- Used Jenkins as continuous integration server to run automated test suites. Integrated Automation scripts in Continuous Integration tools (Jenkins) for nightly batch run of the Script
- Coordinated across QA, development, and product teams for efficient issue isolation, root cause analysis, and resolution

Environment/Tools: JIRA, UAT, Test Director, Selenium

EDUCATION

Master of Science in Technology Management
University of Massachusetts Dartmouth, MA

Bachelors in Computer Application
Guru Gobind Singh Indraprastha University, Delhi, India

CERTIFICATION ISTQB Certified Tester – Foundation Level
