

Srujan Nukala

Full Stack Java Developer

USA | +1 (940) 278-9184 | srujann.dev@gmail.com | [LinkedIn](#)

Professional Summary

Full Stack Java Developer with 4 years of experience in designing and deploying scalable web applications using Java, Spring Boot, Microservices, and Angular/React. Improved application performance by 25%, reduced API response time by 30%, and optimized database queries for 20% faster data processing. Skilled in REST APIs, AWS, and CI/CD tools (Jenkins, Docker, Kubernetes). A strong teammate with a record of delivering 95% on-time project completion in Agile/Scrum environments.

Professional Experience

MetLife, Software Engineer, USA

Apr 2025 – Present

- Designing and developing enterprise-scale insurance applications using Java, Spring Boot, and Microservices, handling high-volume transactions (1M+ users) with improved reliability.
- Built and integrated RESTful APIs for claims, policy, and billing modules, reducing manual intervention and cutting processing time by 25%.
- Leveraging AWS (EC2, S3, RDS, Lambda, and API Gateway) for secure and scalable cloud-native solutions, improving system uptime to 99.9%.
- Participated in multiple AI Hackathons, building innovative prototypes and proof-of-concepts that demonstrated real-world AI integration.
- Implementing CI/CD pipelines with Jenkins, GitHub Actions, Docker, and Kubernetes, reducing release cycles by 40%.
- Established versioning and governance for REST APIs via OpenAPI standards, minimizing breaking changes and improving backward compatibility.
- Enhanced system performance through caching (Redis) and query optimization, leading to 20% faster response times.
- Collaborating with cross-functional teams across USA and India in an Agile/Scrum environment, achieving 98% on-time delivery of critical projects.

XLogic, Java Developer, India

Jun 2020 – Nov 2023

- Engineered and sustained enterprise web applications utilizing Java, JSP, Servlets, Spring MVC, and Hibernate; optimized business workflows resulting in a confirmed efficiency boost of 30%.
- Migrated legacy monolithic systems to Spring Boot Microservices, reducing system downtime by 20% and improving maintainability.
- Integrated front-end frameworks (Angular, Bootstrap, jQuery, AJAX) with backend services, delivering responsive and user-friendly UIs.
- Designed and optimized SQL queries in PostgreSQL and MySQL, improving query execution time by 35%.
- Programmed AI-powered developer productivity tools leveraging GitHub APIs and Copilot, improving automation efficiency by 25%.
- Automated deployment pipelines with Maven, Jenkins, Docker, and Kubernetes, cutting release time from days to hours.
- Ensuring compliance with data security and regulatory standards (HIPAA, GDPR), improving audit readiness by 100%.
- Built and consumed SOAP and REST APIs for third-party integrations, enhancing interoperability and reducing data transfer delays by 25%.
- Collaborated in Agile teams, contributing to sprint planning, code reviews, and retrospectives, maintaining 95% sprint goal achievement.

Certifications

AWS Certified Cloud Practitioner (AWS)

Projects

Claims Management Portal

- Crafted a full-stack portal using Java, Spring Boot, Angular, and REST APIs to streamline claims processing.
- Improved claim approval workflow efficiency by 30% and reduced manual errors by 25%.
- Deployed on AWS (EC2, S3, RDS, Lambda) with CI/CD using Jenkins and Kubernetes for high availability.

E-Commerce Web Application

- Developed a full-stack e-commerce platform using Java, Spring MVC, Hibernate, and Angular.
- Integrated payment gateways and REST APIs, reducing checkout errors by 15%.

Employee Management System

- Created a centralized system using Spring Boot, JSP/Servlets, and MySQL for managing employee data.
- Reduced HR processing time by 30% through automation of leave and payroll workflows.

Skills

Programming Languages: Java, J2EE, JSP, JDBC, JavaScript, TypeScript, Python

Frontend: HTML5, CSS3, Angular, Next.js, Vue.js, Bootstrap, jQuery, AJAX

Backend: Spring Boot, Spring Security, Hibernate, Spring REST, JSON, XML, Node.js,

Database Management: PostgreSQL, MySQL, MongoDB, Cassandra, Redis, Hibernate, IBM DB2

Microservices & Cloud: AWS (EC2, S3, RDS, Lambda, API Gateway), Azure, Google Cloud Platform (GCP)

Build & CI/CD Tools: Maven, Gradle, Jenkins, GitHub Actions, Docker, Kubernetes, Git, GitHub, Bitbucket

Testing Frameworks: JUnit, Mockito, Karma, Jasmine, Jest, Spring Test

Agile Methodologies: Scrum, JIRA

Education

Master of Science in Technology Management

Jan 2024 – Aug 2025

Lindsey Wilson University, USA
