Experience

Infosys Limited | Digital Specialist Engineer

Duration: Jan-2022 To Feb-2024

1). Molina: Healthcare System Client

Tech-Stack: Python, Django, MySQL, Azure, Celery.

About: Engineered a comprehensive claims management pipeline. Automated document validation using UIDAI and third-party APIs, added fraud detection, calculated plan dependent benefits, and dynamically allocated client support managers based on real-time availability and workload using advanced scheduling algorithms.

Engineered a Celery cron job for monthly reporting. Developed an automated system to generate detailed monthly reports on client settlements, fraudulent cases, benefits offered, and total settlement amount.

2). GTS Company: Centralised Dashboard for Multiple Warehousing Transport

Tech-Stack: Python, Django, MySQL, Azure, Pusher.

About: Implemented real-time shipment tracking and notification systems. Design and implemented a robust solution leveraging Pusher to provide users with instantaneous updates on shipment status and location. Improved user engagement and satisfaction by enabling seamless tracking and proactive notifications throughout the shipping process.

Technical Skills

Languages: Python, PySpark, SQL.

IT – Constructs: Data-Structures and Algorithms, DBMS, OOPS.

Technologies: Django, Azure, Git, Azure Data Factory, Azure Data Bricks, ADLS Gen2.

Academic Details

BTech – Computer Science	Higher Secondary Education	Secondary Education
A.P.J. Abdul Kalam University	UP Board	UP Board
(2018-2022)	(2016)	(2014)
SGPA: 7.8	Percentage: 82.5	Percentage: 71.8

Personal Projects

Pro Hub

Tech-Stack: Django, Python, HTML, CSS, MySQL.

About: Developed and launched Pro Hub, an innovative platform for developers to create accounts, upload projects, and engage with a vibrant community. The platform fosters collaboration, feedback, and networking among tech enthusiasts

Achievements

- Solved 800+ problems on [Leetcode](#).
- 5-Star in SQL problem solving at [Hackerrank](#).
- 5-Star in problem solving at [Hackerrank](#).
- 3-Star at [CodeChef](#).
- Solved 100+ problems on [Codeforces](#).
