

Professional Summary

Full Stack Developer with 4+ years of experience designing and delivering secure, scalable, and performance-optimized applications across healthcare and IT services. Skilled in Java, Spring Boot, React.js, Angular, Node.js, and AWS with proven expertise in microservices, BFF architecture, and HIPAA-compliant healthcare integrations. Adept at collaborating with cross-functional teams to deliver high-impact features, improve system performance, and enhance user experience.

Technical Skills

Programming Languages: Java (17/8), SQL, JavaScript, TypeScript, HTML, CSS, Shell Scripting (Bash)
Backend Development: Spring Boot, Spring MVC, RESTful APIs, Microservices, Hibernate, JPA, Node.js, Backend-for-Frontend (BFF)
Frontend Development: React.js, Angular 15, HTML5, CSS3, Bootstrap, Material-UI, RxJS
Databases: SQL Server, MySQL, PostgreSQL, PL/SQL, NoSQL, Data Modeling, RDBMS
Cloud & Deployment: AWS (EC2, RDS, S3, Lambda, SNS), Git, GitHub, GitLab, Docker, Kubernetes, Terraform, CI/CD, Deployment Automation, Load Balancing
Testing & Quality: JUnit, Mockito, Jest, Postman, Unit Testing, Integration Testing, Bug Resolution
Security & Compliance: OAuth 2.0, JWT, HIPAA Compliance, Role-Based Access Control, Secure Authentication & Authorization
Monitoring & Analytics: ELK Stack (Elasticsearch, Logstash, Kibana), Grafana
Core Competencies: Data Structures & Algorithms (DSA), OOP, System Design (APIs, Databases, Cloud Computing, Problem-Solving)

Professional Experience

Software Developer | HCA Healthcare, USA

Feb 2025 - Present

- Designed and deployed enterprise-grade Patient Engagement Portal using Java 17, Spring Boot, Angular 15, and React.js, improving patient self-service adoption by 30%.
- Built secure RESTful and BFF APIs to integrate Epic and Cerner EMRs, ensuring HIPAA-compliant workflows and reducing manual intervention by 25%.
- Implemented OAuth 2.0, JWT, and role-based access control, strengthening patient data security and authentication.
- Optimized SQL Server queries and PL/SQL procedures, reducing response times by 20% across critical modules.
- Deployed services on AWS (EC2, Lambda, RDS, S3) with Docker and Kubernetes, improving scalability and reducing downtime during peak usage.
- Integrated Grafana dashboards with ELK Stack (Elasticsearch, Logstash, Kibana) for proactive monitoring, cutting issue resolution time by 22%.
- Automated deployments with Terraform and GitLab CI/CD pipelines, enabling daily releases instead of bi-weekly cycles.
- Collaborated with UX teams to deliver responsive frontends using Angular and TypeScript, boosting accessibility scores by 25%.
- Applied system design principles (APIs, databases, load balancing) to improve overall portal performance under 50K+ concurrent users.

Software Developer | Parallax Pros, India

Jul 2020 - Jun 2023

- Developed and deployed microservices in Java 8, Spring Boot, and Node.js, supporting claims processing, secure login, and notifications.
- Engineered reusable React.js UI components with Bootstrap and TypeScript, enhancing responsiveness across devices by 15%.
- Secured sensitive healthcare data using Spring Security and JWT-based authentication.
- Designed NoSQL and relational data models (MySQL, PostgreSQL, Hibernate, JPA) to optimize complex claims workflows, improving efficiency by 18%.
- Automated builds and deployments with Maven, Docker, and GitHub, while introducing Terraform scripts for infrastructure-as-code.
- Implemented Kubernetes orchestration for containerized services, increasing system availability during high-traffic loads.
- Conducted unit and integration testing with JUnit, Mockito, Jest, and Postman, raising test coverage to 90%.
- Leveraged AWS services (EC2, S3, SNS) for high-availability deployments, improving fault tolerance and scalability.
- Documented APIs with Swagger and streamlined bug resolution, reducing production defects by 20%.

Education

Master of Science in Information Science and Technology

Aug 2023 - May 2025

Missouri University of Science and Technology, Rolla, MO

Certifications

- Business Analytics and Data Science – Certificate of Completion
- AWS Certified Cloud Practitioner – Amazon Web Services (AWS)
