PROFESSIONAL EXPERIENCE

Senior Application Support Supervisor

Ladun Investment | Feb 2020- August 2025

- Implemented and collaborated with cross-functional teams to deliver end-to-end Oracle financial solutions for clients in various industries.
- Conducted in-depth requirement analysis and gathered business requirements to develop comprehensive Oracle Financial modules tailored to clients' needs.
- Implemented and configured Oracle Fusion Financials Financial modules, including General Ledger (GL), Accounts Payable (AP), Accounts Receivable (AR), Fixed Assets (FA), Cash Management (CM), Intercompany and Fusion Expenses.
- Designed and executed data migration strategies to ensure smooth transitions from legacy systems to Oracle Financials, minimizing downtime and data integrity issues.
- Provided expert guidance and support during Oracle Financials system upgrades, patches, and maintenance activities.
- Conducted workshops, training sessions, and knowledge transfer to empower clients' finance teams with in-depth understanding and efficient usage of Oracle Financials applications.
- Collaborated with business stakeholders to identify business process improvement opportunities and streamlined financial workflows for optimal performance.
- Implemented security protocols and ensured adherence to industry best practices for data security and confidentiality.
- Successfully resolved complex technical issues, performed root cause analysis, and implemented corrective actions to maintain system stability and reliability.
- Providing In-house support for daily operations.

SKILLS

- Strong organizational and time-management skills
- Exceptional communication and interpersonal skills
- Ability to work independently and as part of a team
- Detail-oriented and able to handle multiple tasks simultaneously
- Experience in managing budgets and handling financial documents

Assistant Manager ERP

Eighteen | Nov 2017 - Jan 2020

- Spearheaded the successful implementation of an ERP system, leading a team of IT professionals and functional experts through all stages of the project lifecycle for Oracle Financials, Procurement, Projects and Oracle Sales
- Collaborated with key stakeholders to identify business requirements, define project scope, and develop comprehensive project plans, ensuring alignment with organizational objectives.
- Conducted in-depth research and analysis to evaluate potential ERP solutions, selecting the most suitable system to meet business needs while considering cost-effectiveness and scalability.
- Oversaw data migration, customization, and system integration, ensuring seamless transfer of critical information and smooth alignment with existing business processes.
- Developed and delivered comprehensive training programs for end-users, empowering staff to utilize the ERP system efficiently and effectively.
- Proactively identified and addressed implementation challenges, managing risks and mitigating potential issues to ensure project timelines and deliverables were met on time and within budget. Acted as a liaison between technical teams and business units, facilitating clear communication and understanding of requirements throughout the implementation process.
- Provided in-house support for all implemented modules

Oracle Functional Consultant

Jaffer Brothers Ltd. | Aug 2015 - Nov 2017

Collaborate with business stakeholders and financial teams to understand their specific needs and gather detailed requirements for the Oracle Financial system implementation. Implementation of Oracle Financial modules, such as General Ledger (GL), Accounts Payable (AP), Accounts Receivable (AR), Cash Management, Fixed Assets, and other relevant modules, according to the defined business requirements.

Customize and configure Oracle Financial modules to adapt them to the organization's unique business processes, ensuring a seamless fit and effective utilization.

Conduct thorough testing of the Oracle Financial system to identify and resolve any issues, bugs, or inconsistencies. Ensure the system's accuracy and reliability for day-to-day financial operations.

Develop and deliver training programs to end-users and finance teams to ensure they are proficient in using the Oracle Financial system effectively.

Provide ongoing support and assistance to users, addressing their queries, issues, and concerns related to the Oracle Financial modules.

Develop and customize financial reports, dashboards, and analytics to aid in decision-making and financial analysis processes.

Recommend and implement enhancements, upgrades, and best practices to optimize the Oracle Financial system's performance and efficiency.

Documentation: Maintain comprehensive documentation of system configurations, processes, and any modifications made to the Oracle Financial system.
