Professional Summary

As an SDET with 10+ years of experience, I have demonstrated expertise in designing, developing, and executing automated testing frameworks across various environments. My adaptability and strong communication skills allow me to excel both independently and as part of a team. I am proficient in numerous programming languages, technologies, and tools, including Java, Selenium, Maven, Cucumber, TestNG, JavaScript, Jira, AWS (S3, IAM, EC2), Git, Jenkins, SQL, GitHub, API, Cypress, REST API, Postman, REST Assured, BrowserStack, Selenium WebDriver, Python, Docker, Kubernetes, Playwright, TypeScript, Spring Boot, JUnit, Karate, Gherkin, Selenium Grid, GitHub Actions, Confluence, XPath, Node.js, MongoDB, and ServiceNow, which are essential for software development and testing.

Experience

Software Development Engineer in Test (SDET)

Zuora Inc., Redwood City, CA

Feb 2020 – Jun 2024

- Developed and maintained TDD and BDD test scripts utilizing Selenium, TestNG, Java, JavaScript, Python, Bash, and various automation tools, including GitHub Actions, Cypress, and Playwright.
- Executed SQL queries to retrieve and prepare data for testing.
- Tracked bugs, verified fixes in Jira, and reported results to stakeholders.
- Coordinated in an Agile environment while adhering to Sprint plans.
- Proficient in testing web-based client-server applications via REST APIs.
- Developed database sorting and grouping, performed DBMS/AWR profiling, and created a script to collect RC data in tables for ServiceNow.
- Configured and executed Selenium Grid and BrowserStack across all browsers and platforms.
- Developed a tool for Automation Tests named SpinDetector.
- Implemented Avatar and Ghost Inspector for automated testing in NetSuite by Oracle.
- Managed AWS Cloud and established new AWS instances based on requirements.
- Implemented a Continuous Delivery pipeline (CI/CD) using Jenkins and GitHub AWS.

Quality Assurance Automation Engineer

Practical SQA Inc., Los Altos, CA

Mar 2014 - Feb 2020

- Developed BDD test automation scenarios using Selenium Cucumber with Java, JavaScript, and Python.
- Oversaw the entire QA lifecycle, including requirements analysis and design.
- Created automated tests with Selenium WebDriver and validated API requests for web services.
- Crafted SQL queries for back-end testing using MS SQL Server.
- Established regression test automation strategies and coordinated execution with a team.
- Developed the QA process and documented test plans, test cases, and procedures.
- Participated in design and requirements reviews, organized owners' meetings, test planning sessions, daily scrums, and defect review meetings with project managers, developers, business analysts, and stakeholders.

Technical Support Specialist

Edge Inc., Dublin, CA

Sep 2012 - Feb 2014

- Perform diagnostics and troubleshoot hardware and software issues.
- Directed wireless installations and support, diagnosing and resolving printer issues while providing ongoing assistance.
- Installed, upgraded, and configured various operating systems, application software, and hardware components.
- Troubleshoot issues affecting Apple products for up to 15 customers daily, including conducting root cause analyses, applying software updates, and identifying technical solutions.

System Administrator

CGA Inc., Livermore, CA

Dec 2007 - Aug 2012

- Installed, upgraded, and troubleshooting for over 70 users and 120 devices, including laptops, desktops, printers, and smartphones.
- Installed firewalls, antivirus software, and cybersecurity measures for sensitive legal documents.
- Configured and installed local servers and executed hardware and software upgrades.
- Attended departmental meetings to identify continuous improvement opportunities and enhance IT service delivery to users.
- Supported disaster recovery and backup procedures.

Network Engineer

Motorola Solutions Inc., Livermore, CA

Apr 2007 - Nov 2007

- Troubleshoot the implemented software and managed video statistics and clips.
- Wrote scripts in C++ and SQL. Managed warehouse inventory staff.
- Involved in assembling and soldering parts for the final product.

Technical Support Specialist

Gymfinity Gymnastics Inc., Livermore, CA

Aug 2004 - Mar 2007

- Installed, upgraded, and configured various operating systems, application software, and hardware.
- Troubleshoot, diagnose, and resolve computer hardware and software issues.
- Diagnosed printers, troubleshooted issues, and provided support. Managed wireless installation and support.

Education

Diablo Valley College

Associate's Degree, Computer and Information Science, 2000 – 2005

Pleasant Hill, CA, USA

Krasnodar State Institute of Physical Education and Sport

Bachelor's Degree, Physical Education and Sport, 1978 – 1982

Krasnodar, Krasnodar Krai, Russia

Skills

- Java • Maven • Cypress • SQL • GitHub • Jenkins • AWS S3 • AWS IAM • AWS EC2 • API • MySQL •
- Selenium WebDriver • XPath • Cucumber • Jira • Python • Postman • JavaScript • Docker • Node.js •
- Git • Kubernetes • Selenium • TestNG • Playwright • Spring Boot • Selenium Grid • JUnit • BrowserStack •
- Gherkin • Confluence • REST API • REST Assured • TypeScript • Karate • GitHub Actions • MongoDB •
