Summary

Innovative and detail-oriented Software Engineer with strong skills in JavaScript, TypeScript, and React. Experienced in building responsive, user-friendly web applications; communicating and collaborating effectively with cross-functional teams. Passionate about creating high-quality digital experiences and continuously learning new technologies.

Education

California State University , Long Beach, CA

Expected Graduation : May 2025

Master of Science in Computer Science

GPA: 3.7/4.0

Coursework: Artificial Intelligence, Pattern Recognition, Advance Data Structures & Algorithms, Object Oriented Analysis and Design, Software Engineering, Advance Computer Architecture, Advance Programming Langugae.

Technical Skills

Programming Languages : JavaScript, TypeScript, Python, Java, SQL, PHP

Frontend Technologie & UI : React.js, Redux, Next.js, HTML5, CSS3, SCSS

Backend & APIs : Node.js, Express.js, RESTful APIs, GraphQL, Spring Boot

Database Systems : MySQL, PostgreSQL, MongoDB

CI/CD & DevOps : AWS, Docker, Kubernetes, Jenkins, GitHub Actions

Testing & Tools : Postman, JUnit, Selenium, Jira, Bitbucket, Git, NPM, Pandas, NumPy, Matplotlib

Professional Experience

California State University, Long Beach

Sep 2024 – Present

Graduate Assistant

JavaScript, Python, SEO, Data Visualization

- Developed and optimized the **Home and News & Events** section on the **CSULB ASCEND** website using **JavaScript**, enhancing **user experience and engagement**.
- Implemented an **event posting feature** for administrators, improving **efficiency** and **content management**.
- Boosted website **click-through rates by 20%** through **Search Engine Optimization (SEO)** techniques.
- Led the **collection, analysis, and visualization** of ASCEND survey data using **Python tools like Pandas, NumPy, Matplotlib, Seaborn**, and built **interactive dashboards** to track key **performance indicators (KPIs)**, enhancing real-time monitoring of student retention and academic growth.
- Independently led** the development of key features, demonstrating **strong problem-solving** and **troubleshooting abilities**.

Tata Consultancy Services

Nov 2020 – May 2023

Software Engineer

CI/CD, React.js, MongoDB, Node.js, Express.js, MySQL

- Developed a **shipping feature** for the **automobile parts distribution platform** using the **MERN** stack, enabling **real-time shipment tracking**, reducing customer inquiries by **30%**.
- Minimised **order follow-up up to 20%** by **opitmizing shipment tracking and notification system**.
- Built an **automated CI/CD pipeline** for **order update notifications**, cutting release times by **25%**.
- Implemented **indexing strategies** and **optimized queries** for large datasets, resulting in a **40%** boost in performance and a **25% reduction in data retrieval times**, enhancing system **scalability** and **efficiency**.
- Developed **React JS components**, ensuring compliance with **WCAG 2.2 AA accessibility standards**.
- Migrated data from **MySQL** to **MongoDB**, improving scalability by **35%** and reducing query times by **30%**.
- Enhanced **API performance** and **web application speed** using **React.js, Next.js, and lazy loading**.
- Contributed to discussions on **software architecture, system integration, and performance enhancements**.
- Actively participated** in **code reviews** and **debugging sessions**, maintaining **high code quality** and **documentation standards**.

Projects

MovieTheater Club application | React JS, Node JS, APIs, MongoDB, AWS EC2

- Scrum Master for a **full-stack** movie ticket booking platform deployed on **AWS EC2 with auto-scaling**.
- Developed backend **CRUD APIs** for handling user transactions and optimized queries for **faster data retrieval**.

Crypto Dashboard Platform | Angular, Express, Firebase, GitHub pages, Glitch

- Designed an **interactive user interface** featuring **real-time** visualizations and **secure authentication**.
- Deployed the frontend on **GitHub pages**, with backend services hosted on **Glitch** and **Firebase authentication** for user login.
