

JOSHUA PICKERING

Senior Software Engineer

☎ +1 (405) 283-2735 @ joshuawithpickering@gmail.com 🔗 <https://www.linkedin.com/in/joshua-pickering-418b57313>
📍 59 16th St Rear, NY, Buffalo, 14213

SUMMARY

Experienced Software Engineer with over **10 years** of expertise in designing, developing, and deploying scalable web & mobile applications. Proficient in **React.js, Next.js, Angular, TypeScript, Java, Spring, MySQL, MongoDB** and **Azure, AWS**, with a strong track record of delivering high-quality, user-centric solutions. Skilled in **mentoring** teams, **optimizing** system performance, and **integrating** innovative technologies to drive operational efficiency and business growth.

EXPERIENCE

Sr. Software Engineer

Very Good Ventures

📅 08/2019 - Present 📍 New York, NY

- Designed and developed scalable web applications using **React.js, Angular, Java, Spring, Node.js** and **Express.js**, ensuring seamless user experiences and efficient server-side functionality.
- Deployed and managed applications on **AWS** and **GCP**, implementing **CI/CD pipelines** with **Jenkins, GitHub Actions, Docker**, and **Kubernetes** to streamline deployments and enhance system scalability.
- Built and optimized **RESTful APIs** and **GraphQL APIs** while managing databases like **MySQL, PostgreSQL, MongoDB, Redis**, and **Cosmos DB**, ensuring fast, secure, and reliable data operations for real-time applications.

Sr. Full Stack Developer

sibedge

📅 05/2017 - 06/2019 📍 Cupertino, CA

- Developed and maintained **full-stack applications**, utilizing **React.js, Angular, HTML5, CSS3**, and **JavaScript** for the front-end, while building scalable back-end systems using **Java, Spring, Node.js** and **Express** to ensure performance, security, and scalability.
- Designed and implemented **RESTful APIs** for cloud-based integrations with Salesforce and Workday, leveraging relational databases like **MySQL** and **PostgreSQL** as well as **NoSQL** solutions such as **MongoDB** for efficient data management and retrieval.
- Optimized application performance and deployment pipelines by implementing **automated testing, CI/CD processes**, and **build management** using tools like **Jenkins, Maven**, and **Docker**, working in an **Agile** environment to deliver high-quality solutions.

Frontend Developer

MojoTech

📅 08/2013 - 04/2017 📍 Providence, RI

- Developed **web applications** using **HTML5, CSS3, JavaScript**, and frameworks like **jQuery, Backbone.js, AngularJS**, and **React.js** for building scalable, interactive user interfaces.
- Built responsive front-end interfaces with **Bootstrap** and integrated **React** and **AngularJS** with **backend services** via **RESTful APIs**, working alongside **PHP** and **MySQL** for data management, while optimizing performance through **AJAX, lazy loading**, and build automation tools like **Grunt.js** and **Gulp.js**.
- Collaborated in **Agile** teams to deliver user-centric applications, implementing dynamic visualizations with **D3.js**, and enhancing development workflows with **Git** and automation tools.

EDUCATION

Bachelor of Computer Science

Lakehead University

📅 04/2009 - 03/2013

SKILLS

Frontend

JavaScript TypeScript HTML/CSS
SASS/SCSS LESS React.js Vue.js
AngularJS Next.js Svelte Redux
VueX jQuery Bootstrap Webpack
Vite Babel ESLint Prettier Jest
TailwindCSS Material-UI Ant Design

Backend

Node.js Express.js NestJS
Ruby on Rails Spring Boot Java
Django Flask Python C#
ASP.NET PHP Laravel GraphQL
RESTful API Microservices

Database & Authentication

MongoDB SQL MySQL PostgreSQL
Firebase SQLite Redis DynamoDB
Prisma JWT/OAuth2

DevOps & Cloud

Docker AWS(S3, EC2, Lambda, Amplify)
Vercel Nginx GCP Azure

Version Control & Collaboration

Git/GitHub GitLab Scrum/Kanban

Mobile

React Native Expo Flutter Kotlin
Swift Android iOS
