Summary

I am a highly versatile full-stack software engineer. I've helped many companies take an idea and turn it into product that serves thousands to millions of users. Known for building fast and exceptionally well, I can work on either end of the stack.

Skills

React, Next.js, Flutter, React Native, Expo, JavaScript, TypeScript, Python, PHP, Java, GraphQL, C++, C#, HTML, CSS, SCSS (Sassy Cascading Style Sheets), SQL, Dart, Solidity, Rust, Node.js, Redux, Web3.js, REST APIs, Puppeteer, Git, Express.js, Jest, MUI, Cypress, OAuth2, Tailwind CSS, Selenium, Bootstrap, Webpack, AWS, GCP, Heroku, Hubspot, Mailchimp, Docker, CircleCI, MongoDB, MySQL, PostgreSQL, Redis, Elasticsearch, Pinecone, OpenAI, Moodle, Wordpress, ArcGIS, Cloudinary, Terraform, Figma, Bittensor, Full-Stack, Front-End Development, Back-End Development, Laravel, FastAPI, Flask, Django, TensorFlow, Prompt Engineering, Project Management, Communication skills

Experience

Self-Employed | Orlando, FL

Full Stack Software Engineer | 01/2025 - Present

- Directed gathering performance statistics to assist in determining hardware and communication tools needed to support projected transaction volumes, response time and system availability targets.
- Researched Bittensor, a decentralized AI platform, and developed an innovative subnet concept while operating miners.

XeoDev | Orlando, FL

Senior Software Engineer | 08/2023 - 12/2024

- Implemented and adopted cloud technologies and best practices for automation, configuration, monitoring and platform scalability.
- Helped manage application's technology platform status, project pipeline and development priorities.
- Supported junior developers through mentorship, sharing insights on best practices, technologies, and problem-solving strategies.

Glory Games Worlds | Singapore, Singapore

Blockchain Engineer | 04/2022 - 07/2023

- Created secure and efficient decentralized applications(dApps) and conducting rigorous audits to ensure their integrity.
- Utilizing tools such as Chainlink and OpenZeppelin, developed smart contracts that are resilient to attacks and adhere to the best practices.

Fizen Technology | Tampa, FL

Full Stack Developer | 01/2019 - 03/2022

- Delivered high-quality frontend codes to multiple websites and web applications on a highly complex and dynamic business using React, Next.js
- Specialized and boosted the QA test automations and web automations for various kinds of web apps.
- Maintained application security by conducting regular code reviews and fixing vulnerabilities as needed.

XENNEO | Tampa, FL

Software Engineer | 10/2015 - 12/2018

- Development and implementation of talent management solutions have been a focus area, helping organizations manage their human resources more effectively through innovative software tools.
- Optimized database queries to improve data retrieval speeds, enhancing overall application performance significantly.
- Performed periodic updates on public-facing JavaScript/Python/PHP applications.

Education

University of Florida

Computer Science | 10/2015
