

VANDANA MUDUNURU

SUMMARY

Cybersecurity & Cloud Security Professional with 3.10 years of experience in application security, cloud security, and compliance. Skilled in risk assessment, vulnerability management, and security automation, with a strong focus on integrating security best practices into development pipelines and cloud environments. Experienced in conducting penetration testing, secure SDLC oversight, and compliance audits (SOC, ISO 27001, PCI DSS, NIST) to enhance organizational security posture.

EXPERIENCE

Software Security Engineer

Fulcrum GT | Visakhapatnam, Andhra Pradesh | July 2020 - March 2022

- **Application Security:** Conducted **SAST & DAST assessments** to identify and remediate vulnerabilities in web applications, ensuring secure SDLC integration.
- **Penetration Testing:** Performed **internal web application penetration tests**, identifying security flaws and recommending mitigation strategies.
- **Full-Stack Development & Security:** Developed and secured **ReactJS, NodeJS, HTML, CSS, and Python** applications while embedding security best practices throughout the development lifecycle.
- **Secure SDLC Oversight:** Led the **entire SDLC process**, incorporating security controls at each phase to enhance software resilience against threats.
- **Compliance & Audits:** Assisted in **SOC, ISO 27001, and PCI DSS** audits, ensuring applications and infrastructure met regulatory security requirements.

Security Engineer

Accenture | Hyderabad, Telangana | May 2018 - June 2020

- **Cloud Security & Compliance:** Implemented and managed **AWS security services** (IAM, S3, VPC, Security Hub, GuardDuty, Systems Manager, and Inspector) to enhance cloud security posture.
- **CSPM (Cloud Security Posture Management):** Configured and optimized **Prisma Cloud** to identify and remediate cloud misconfigurations, ensuring continuous compliance with industry standards.
- **Vulnerability Management:** Conducted **regular vulnerability assessments** using automated scanning tools, prioritized remediation efforts, and reduced security risks across cloud environments.
- **Security Automation:** Developed **Lambda-based security automation** to enforce security policies, detect anomalies, and respond to security threats in real time.
- **Risk & Compliance:** Led security **risk assessments** aligning with **ISO 27001, PCI DSS, and NIST frameworks**, ensuring regulatory compliance and mitigating security gaps.

EDUCATION AND TRAINING

CyberSecurity (Sep 2024 - Current)

HackTheBox | TryHackMe, Learner

Master of Science

Cybersecurity (Jan 2023 - Aug 2024)

University of Central Missouri | GPA 3.7, Warrensburg, MO

Bachelor of Science

Computer Science & Engineering (Aug 2014 - May 2018)

Lendi Institute of Engineering And Technology, Andhra Pradesh, India

CONTACT

📞 6505197325 | Austin, TX 78717

SKILLS

Application security

SAST, DAST, SDLC security, secure code reviews, web application security testing, secure code trainings, Burp Suite, Checkmarx, Veracode, Snyk

Vulnerability assessment

Nessus, Qualys, CVE, CVSS

Cloud security (AWS)

Prisma Cloud, Prowler, IAM, Security Groups, NACLs, Network Firewall, Security Hub, Inspector, Lambda, GuardDuty, S3, VPC, EC2, Route 53, SCP, Macie (DLP)

Risk Management

Risk assessments, NIST, ISO, risk register

Regulatory compliance

GDPR, CCPA

Application programming

JavaScript, Python, Node.js, React.js, Java, PHP

Network security

IDS, IPS, Switches, Firewalls, Routers, OS hardening, Wireshark, Nmap, Kali linux

Incident handling

SIEM, Wazuh, Splunk

Governance and compliance

SOC 2, ISO 27001, PCI DSS, NIST, security policies, standards, procedures, security awareness trainings

Endpoint Security

MDM (Hexnode)

Soft skills

Strong communication, problem-solving, analytical thinking, and attention to details.

CERTIFICATIONS

- **CompTIA Security+** (ID. COMP001022281262)
- **Certified in Cybersecurity (ISC2 CC)** (Cert. No. 2166617)
- **Bug Bounty Hunter by TCM** (cert.9mlwdhyp)
- **Currently Pursuing:** AWS SSA (In progress), TCM PJWT (In progress)
